APPLICATIONS DEVELOPED

Spontaneous.ly, [GitHub](#) | [Live](#)

- Full stack **mobile-responsive CRUD** app that allows users to create an account, search for activities in their area, make a reservation for those activities, track points they have gained by attending activities, and spend their points to change filter criteria
- Dynamically renders content to the DOM based on **query parameters** in the URL generated from **React Router** through **Fetch requests** to simulate a multi-page application
- Built using **React.js**, **React Router**, **JavaScript (ES6)**, **PHP**, **MySQL**, and **Bootstrap 4**

Coffeine Supply Co, [GitHub](#) | [Live](#)

- LAMP stack **mobile-responsive Content Management System (CMS)** to create, read, update and delete cart and product data via **Fetch Requests** and **PHP session cookies**
- Updated the DOM dynamically with **React.js** and styled using **Bootstrap 4**

PROFESSIONAL EXPERIENCE

EDUCATION

University of California Riverside, *B.S. in Business Administration*

LearningFuze, *Accelerated Web Development Program*

- 70+ hours of programming per week for total of 800+ hours of programming in a simulated work environment with project deadlines and mentorship from senior developers

TECHNICAL SKILLS

Strong

- React.js
- JavaScript (ES5, ES6)
- OOP
- Procedural Programming
- jQuery
- Bootstrap
- HTML5
- CSS3

Experienced

- Node.js
- Express
- PHP
- PostgreSQL
- MySQL
- Material UI

Tools

- Git/GitHub
- AWS
- npm
- Webpack
- Babel
- Apache
- Chrome Dev Tools
- Postman
- Meistertask
- JIRA
- Figma
- Photoshop
- Command Line
- VS Code

HOBBIES

Traveling

- Domestic Travel + Japan, Dominican Republic, and Mexico

Cooking

- In the process of writing a cookbook for burgers
