# **APPLICATIONS DEVELOPED**

# **Spontaneous.ly**, *Github* | *Live*

- Full stack mobile-responsive CRUD app that allows users to create an account, search for
  activities in their area, make a reservation for those activities, track points they have gained
  by attending activities, and spend their points to change filter criteria
- Dynamically renders content to the DOM based on **query parameters** in the URL, generated from **React Router**, through **Fetch requests**
- Leverages routing and the browser's history property to simulate a multi-page application
- Built using React.js, React Router, JavaScript (ES6), PHP, MySQL, and Bootstrap 4

# **Coffeine Supply Co**, Github | Live

- LAMP stack **mobile-responsive Content Management System (CMS)** that creates, reads, updates and deletes cart and product data via **Fetch Requests**
- Incorporates PHP session cookies to track shopping cart data of individual clients
- Updated the DOM dynamically with React.js and styled using Bootstrap 4

# **Memory Match**, *Github* | *Live*

- Immersive Cyberpunk inspired memory matching game with statistic tracking, sound effects, and full-screen video backgrounds
- Constructed using **procedural programming** and **jQuery** to interact with the DOM
- Styled with HTML, CSS, and Flexbox with mobile-responsive design in mind to optimize UX

# **PROFESSIONAL EXPERIENCE**

# **Account Manager/E-Commerce Strategist**, Lucid Fusion

2018 - 2019

- Collaborated with Project Management team to provide support and ensure alignment on timelines, deliverable expectations, completion dates, project scope, and team needs
- Participated in Quality Assurance/Quality Control (QA/QC) review sessions on all deliverables before providing to clients
- Recommended opportunities for growth based on strong client relationships, competitive landscape analysis, and additional agency services that fit client needs

# **Senior Enterprise Account Manager**, *Mopro*

2015 - 2018

- Led technology, design, and Account Management team to deliver digital products, meet client needs, scope projects, and exceed monthly revenue goals
- Managed multiple small to mid-sized enterprise clients' web content lifecycle, website design and UX to identify solutions and provide world class service as Senior/Team Lead

# **EDUCATION**

#### **University of California Riverside**, B.S. in Business Administration

#### **LearningFuze**, Accelerated Web Development Program

• 70+ hours of programming per week for total of 800+ hours of programming in a simulated work environment with project deadlines and mentorship from senior developers

# TECHNICAL SKILLS

#### Strong

- JavaScript (ES5, ES6)
- React.js
- JSX
- 00P
- Procedural Programming
- jQuery
- Bootstrap
- HTML5
- CSS3

### **Experienced**

- Fetch
- AJAX
- PHP
- MySQL

#### **Tools**

- Git/Github
- Postman
- Meistertask
- JIRA
- Figma
- Photoshop
- Chrome Dev Tools
- npm
- Webpack
- JSON
- Babel
- Command Line
- VS Code

#### **HOBBIES**

#### **Traveling**

 Domestic Travel + Japan, Dominican Republic, and Mexico

# Cooking

 In the process of writing a cookbook for burgers
